Skills

I am an all round front-end developer who works with JavaScript natively or jQuery. I also design HTML5/CSS3 powered user interfaces.

Here is a brief outline of what I know / can do:

- Single Page Application development powered by Nodejs and react

- Responsive web design using HTML5 & CSS3

- MVC architecture.

- PHP frameworks - Slim / CodeIgniter/Laravel.

- jQuery (jQuery mobile, twitter bootstrap)

- RESTful web services architecture.

- Experience with (Typescript)

- Facebook Messenger & Telegram bot/chatbot development
